TIMOTIUS KUSUMA WARDANA PUTRA

Kediri, Indonesia | timotiusputra1@gmail.com
masterputra.tech | linkedin.com/in/timotius-kusuma-wardana-putra

PROFILE

"Informatics Engineering student at Universitas Dian Nuswantoro Kediri with a focus on web development. Strongly interested in cryptocurrency and its ecosystem, aiming to become a Web3 developer rather than only a web developer. Took part online in Colosseum Frontier 2026 and the Indonesia National Campus Hackathon (Superteam Indonesia), building a Progressive Web App for QRIS payments with cryptocurrency on the Solana blockchain. Both hackathons trained full-stack web development and teamwork. Currently an intern at PLN UP3 Kediri, applying what I have learned in a real workplace."

EXPERIENCE

Intern at PLN UP3 Kediri **September – December 2026**

Participant, Colosseum Frontier 2026 and Indonesia National Campus Hackathon (Superteam Indonesia) **April – May 2026**

- Competed online, as part of a team
- Submitted the project with a pitch deck, a video presentation and a public GitHub repository
- Built a scan-to-pay QRIS payment app paid with cryptocurrency on the Solana blockchain. Live as a demo on Solana Devnet: dollarkilat.xyz

Attended the online workshops of Indonesia Web3 Hackathon 2026 (Binance Academy × BNB Chain × Coinvestasi), mentored by Dev Web3 Jogja **July – August 2026**

- Weekly workshops on Web3 and smart contracts (Solidity)

EDUCATION

SMA Negeri 1 Kediri (senior high school) **2018 - 2021**
Science stream (mathematics and natural sciences)

Universitas Dian Nuswantoro Kediri **2023 – present**
B.Sc. Informatics Engineering

CERTIFICATES

#TechSeries Workshop : Kotlin	**13 – 14 November 2021**
#TechSeries Workshop : Web Development Fundamentals	**23 October 2021**
IBM : Supervised Machine Learning: Classification	**April 2026**
IBM : Introduction to Cloud Computing	**April 2026**
SAP & ASEAN Foundation : ASEAN Data Science Explorers 2026	**2026**
Online Workshop : Indonesia Web3 Hackathon 2026	**July – August 2026**

SKILLS

Technical	**Non-technical**
Web application development	**Responsibility**
UI / UX Design	**Discipline**
Using AI up to automation and agentic workflows	**Problem solving**

SOFTWARE TOOLS

Figma, Canva, Microsoft Office, MySQL, Draw.io, Visual Studio Code, HTML, CSS, JavaScript, TypeScript, React, Next.js, Python, GitHub, Docker, Claude, Codex.
